The American Rescue Plan in Action

In response to historic need, Democrats delivered comprehensive legislation to help Americans weather the COVID-19 crisis.

☒ **Shots in Arms:** The U.S. has administered more than 192 million vaccine doses – and counting. Over 75 million Americans are now fully vaccinated.

- \$20 billion has been provided to get vaccines into Americans' arms more quickly, and it's paying off. Soon, half of the adults in the U.S. will have received at least one dose.
