### The Infrastructure Investment and Jobs Act

Thanks to President Biden and a bipartisan coalition led by Senate Democrats, America is finally rebuilding our aging infrastructure. And we are committed to building back better for the American people.

Now Democrats have stepped up to deliver much-needed investments in our core infrastructure priorities, including:

- Repairing and rebuilding our transportation system, from fixing our roads and bridges to investing in transportation alternatives.
- Securing reliable, high-speed internet for all Americans.
- Ensuring that each and every community, regardless of zip code, has reliable access to clean water.
- Revolutionizing our energy infrastructure so that households can count on cleaner, more reliable, and more affordable power.

These investments will bring our nation's infrastructure into the 21st century, create good-paying American jobs, and help secure our nation's global competitiveness for years to come.
