It's Getting Better with Biden

January 14, 2022

Largest Investment Ever to Fix America's Bridges

Thanks to the Infrastructure Investment and Jobs Act, the Federal Highway Administration announced the largest investment ever made to fix America's crumbling bridges. This is the largest bridge formula program in American history.

Accelerating America's Clean Energy Economy

The Biden Administration announced clean energy projects and plans to create cleaner and cheaper energy, fight the climate crisis, support good-paying, union jobs, and accelerate America's clean energy economy.

Improving Access and Affordability of Testing

The Biden Administration is purchasing 500 million at-home rapid tests that will be free to Americans who want them. President Biden is directing the COVID-19 team to secure an additional 500 million more tests to be distributed for free to meet future demand, for a total of 1 billion at-home tests. The Biden Administration has taken action to increase testing supply, places people can get free tests and types of tests authorized for use.
