Creating a Meat Processing System that Works for Farmers, Consumers and Workers

The President and Senate Democrats are battling price gouging and unfair markets, investing in worker safety and training, and addressing industry concentration to create a meat processing system that's fair and transparent.

75% Decline in New Jobless Claims

At the end of December 2020, 823,000 new jobless claims were being filed each week on average – now we're down below 200,000, a decline of over 75%.

Record-Setting Holiday Season

This holiday season, Americans were able to buy what they needed because shelves were stocked with more goods than ever before and nearly 99% of packages arrived on time.
