The American Rescue Plan in Action:

Shots in Arms

The American Rescue Plan provided \$20 billion to improve vaccine administration and distribution. Through the Administration's efficient use of these funds, President Biden's goal of 70% of American adults receiving at least one shot by July 4 is within reach.

Thanks to the American Rescue Plan Act funding and Administration efforts:

- The U.S. has now administered nearly **302 million vaccine doses**.
- Over **138 million Americans** are **fully vaccinated**.
- Fourteen jurisdictions have already **surpassed the goal of providing 70% of adults with at least one dose**, while 28 states and the District of Columbia have **fully vaccinated at least 50% of adults**.
