

PROJECT 2025

EXPOSED

How Project 2025 will destroy Native communities:

The extreme Republican plan would drastically reduce resources and for tribal governments, destroy sacred Native sites, and disregard Native sovereignty in favor of profit.

- Jeopardizes Native healthcare by destroying Indian Health Services in favor of private, for-profit healthcare providers. (p. 487)
- Eliminates Native American memorials and destroys already-established Native monuments in the West by repealing the Antiquities Act of 1906 and retroactively removing already-established site protections. (p. 532)
- Abolishes HeadStart programs, abandoning over 44,000 Native children's education. (p. 482)
- Abandons promises to keep sacred Native land safe by withdrawing bans on oil and gas leasing around the Chaco Cultural Historic National Park in New Mexico. (p. 523)
- Abandons withdrawals of lands from leasing in the Thompson Divide of the White River National Forest in Colorado and the Boundary Waters area in northern Minnesota. (p. 523)
- Revokes the Department of Housing and Urban Development (HUD)'s ability to provide Indian Housing Programs. (p. 512)
- Disregards objections from Native advocates and approves the 2020 Willow Pipeline and expands approval from three to five drilling pads. (p. 530)
- Terminates tribal sovereignty by allowing Alaska to manage fish and game on ALL federal lands. (p. 531)
- Bans the government from entering into new loans or loan guarantees with tribes, eventually eliminating the Loan Program Office at the Department of the Interior. (p. 383)
